News From Your TOWN HALL

A lot of applications for building permits estimating cost of additions or new construction at \$200 came in for question at the meeting Wednesday night.

One for a building 25x50 to be practically rebuilt listed \$200 as probable cost. If these figures are true, then 2x3s are a lot cheaper and much easier to obtain than we have heard.

Various ordinances were passed authorizing the purchase of a truck, which was badly needed, and a grass cutting machine which is a practical necessity.

The budget was adopted and the millage of 20 was officially sanctioned.

A petition signed by some fifty local farmers asking that certain ordinances be passed concerning the parking and loading of trucks for farm labor in the quarters was found in the Clerk's office, evidently left by a haphazard agent of the farmers.

However, the Mayor referred it to the Towns legal for consideration and study. This is a matter of major importance to the farmers and one that has occasioned a lot of talk and consideration. Probably some worthwhile plan will be evolved from the current study of the question by the City Fathers.

It was reported that 307 freeholders had registered and that a plan to get all who are here out to vote is afoot. The names were apportioned among six civic clubs and in turn apportioned to a committee with not over ten names to each individual.

The names of eight persons are on the list who are out of town. At least three are away in service and in turn away on work. Only one or two are just "away."

Labor Day Activities Generously Attended At Country Club

With a round of tournaments for men and women separately and a mixed two ball foursome Monday afternoon, members of the Country Club of the Everglades celebrated the week end activities with a dance Monday night at the Club House.

Ray's orchestra directed by Sergeant Murphy included a piano player and entertainer who had been with Cab Calloway for ten years previous to becoming a G. I. Joe.

Bennie by name, this entertainer received deservedly the attention of his audience with his classical renditions and caused hits to gyrate, bodies to jiggle, heads to bob and the atmosphere in rhythm, and jitterbuggy feet to "get hep" with his rendition of St. Louis Blues in jive.

An artist with the violin, Sergeant Donovan, a concert player was generously applauded and complimented.

Winners were awarded prizes Monday night by President DeLo in the several tournaments.

36-hole handicap, Men—1st low net, Otis Hayes.

2nd low net, Casper VanLandingham.

3rd low net, E. A. McCabe.

18-hole handicap, ladies—Saturday, 1st low net, Mrs. C. J. Bettner.

2nd low net, Rappley Weeks.

Sunday—1st low net, Mrs. Bee Fleming.

2nd low net, Katherine Weeks and Mrs. Ruby Jones drew a tie.

Mens handicap, Saturday, 1st low gross, W. W. Weeks and J. A. Mosley tied.

Sunday, low gross H. R. Hitchcock and R. R. Taylor drew a tie.

Mixed Two Ball Foursome—1st place, R. R. Hitchcock and Mrs. H. E. Eubrey.

Second place, Buster Ingram and Mrs. C. J. Aspay.

Third place, Jerry McKee and Mrs. Shook.

Fourth place, Otis Hayes and Miss Daphne Schreiber drew a tie with Howard Haney and C. J. Aspay.

First low gross, W. W. Weeks and Mrs. Zelma Bettner.

Second low gross, Casper VanLandingham and Mrs. Daphne Schreiber.

High gross prize, R. Y. Creech.

Budget Up 40% Millage Up 11% Assessment 17%

Very Little Increase Over Actual Expenditures For Current Year

Belle Glade's town budget as adopted by the Town Commission Wednesday night is 40 per cent higher than the budget for the year ending October 1, 1944.

The assessment rate is 11.2 per cent higher than last year's and the millage 11 per cent, or an increase of two mills over the eighteen of last year.

The one item that shows the greatest increase is that of the Sanitary department. This item is up from \$2,000 to a budget figure of \$8,000 for the coming year. The \$2,000 budgeted last year is a small part of the money spent on Sanitary department—somewhere in the neighborhood of \$8,000.

When asked why prisoners are not used for garbage collection it was pointed out that there is a price discount of 12 per cent long enough to become acquainted with the regular routes and work—hence either bailed out or forced to walk out of the white guard is put on the expense which is greatly increased and the work slowed up so that there is a third less Regular employees must be used, therefore, with what help is available by itinerant prisoners.

Twenty-five \$6,000 allotted last year and approximately \$14,000 was spent in repairing and rebuilding the main arteries to and through the quarters as well as the business part of the white section.

Parks got an increase of \$1,100 over last year's figure of \$1,900 a majority of which will go toward a tennis court, which the Lions Club has most effectively sponsored.

Salaries are getting a boost of at least \$30,000 more than last year and approximately \$10,000 was spent in repairing and rebuilding the main arteries to and through the quarters as well as the business part of the white section.

Under "Anticipated Revenues" taxes get a boost of \$9,000 from increased valuation and the two mill addition. Fines and forfeitures are listed at \$12,000, a 50 per cent increase over last year's estimate and less than 50 per cent of the current year's actual income.

Under "Anticipated Revenues" taxes get a boost of \$9,000 from increased valuation and the two mill addition. Fines and forfeitures are listed at \$12,000, a 50 per cent increase over last year's estimate and less than 50 per cent of the current year's actual income.

Dollars resulting from ceiling-price liquor and a pocketful of 40-cent wine bottles and money builds just as good streets and parks as any other. It is not tainted, it is evidence of a sincere effort.

Wave Recruiting Contest Is On

Florida is in the midst of a three-state WAVES recruiting contest with Alabama and Georgia this week, forced to defend its supremacy in a field which she has long ruled supremacy as the result of a change in the gubernatorial office.

Sue Governor Spessard L. Holland by Alabama's Governor Chamberlaine Sparks.

The contest, which opened on September 1, will run for a full month, with the winner to be named on the basis of which state enlists the most women for the Navy.

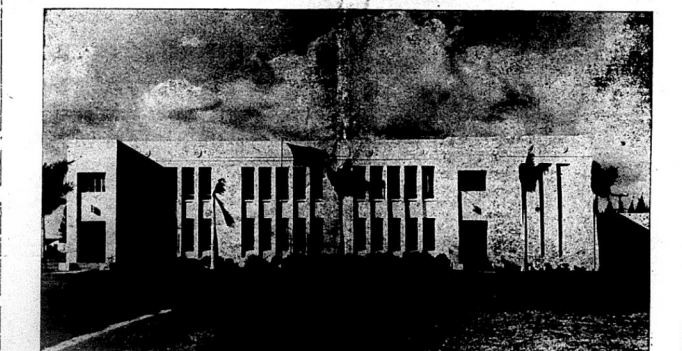

In Governor Sparks's challenge he declared that reports had shown that Alabama has been constantly in the lead in recruiting WAVES.

Repeating Governor Holland declared: "Florida has been consistently in the lead in recruiting WAVES and the state is being served, over a period of time, to have furnished a substantial larger number of women for the Navy than has Alabama."

"I am satisfied our state can get a strong account of herself and at the same time render to the nation, along with Alabama, effective service."

Applicants for the WAVES are being accepted at the U. S. Naval Air Station, Jacksonville, Fla. and at the U. S. Naval Air Station, Jacksonville, Fla. and at the U. S. Naval Air Station, Jacksonville, Fla.

600 Students Begin In Earnest On Monday

B. Elliott Talks At Rotary Club

Declaring that juvenile delinquency is due in most cases to parental neglect, Mr. Elliott, who addressed the Rotary Club last night, said that the juvenile delinquency picture more than in handling teen age boys and girls.

With statistics to back up his point, he stated that girls are becoming involved in the juvenile delinquency picture more than the boys—or the rate of growth is much larger than that of boys.

Recalling from experience in Palm Beach County and confirmed by reports throughout the U. S., Mr. Elliott stressed that in practically every case teen age and those older did not have a record of Sunday school attendance. Trouble between parents and the loss of one or both through death, divorce or "too busy" working, were among the reasons given by practically all delinquents.

Vegetable Committee Meets In Clewiston Today On Wages

Florida vegetable packing houses will operate this winter under a uniform wage scale approved by the National War Labor Board, according to information reaching the Florida Vegetable Committee this week.

The Committee made several requests that the War Labor Board grant a wage schedule that would put all houses, except those with union contracts, under a uniform wage rate.

The wage schedule, which becomes effective immediately, provides that each packing house must, within fifteen days after opening for the 1944-45 season, file with the board a wage classification showing the wages being paid.

The wages must be within the range provided by the order, to wit:

Unskilled—40c to 50c per

hour. Classifications: laborers, night watchman, apprentice graders, laborers. Semi-skilled—50c to 60c per truck drivers, warehouse truckers, Howard cake makers and closers.

Skilled—60c to 85c per hour. Classification: Loaders, mailers, machine box makers, graders and container fillers.

Piece workers—Not to exceed: packers of individually wrapped tomatoes, 8c. Hand box makers, with service, \$1.40 per 100.

Machine box makers, 70c per 100. Celery heart wrappers, 18c per standard crate of 60 bunches. Assembling Howard crates, 55c per 100. Container fillers, peepers, eggplant, cucumbers, sweet corn, 6c bushel.

LaMonte Gray, manager of the Florida Vegetable Committee, said that the Regional War Labor Board had assured the Florida Vegetable Committee that the order would be sent to each packing house, and interpretations of the order made available.

S. B. Andrews, formerly of Berkeley, V. A., has taken over his duties as Assistant Postmaster, having been transferred from Berkeley to fill the newly created office here. Mr. Andrews has been employed in the Post Office at Berkeley for the past 23 years, the last 8 years of which he was Assistant Postmaster.

Heretofore, Postmaster Geo. Farnall has been assisted here with Clerks only. Mrs. Lola Miller, Head Clerk, has been transferred to Berkeley.

Mrs. Andrews and Betty and Bobby are also here to make life at home and the children have registered to enter school.

Mr. Andrews and Betty and Bobby are also here to make life at home and the children have registered to enter school.

Teachers and Pupils Busy Registering for School

New Cash Has Arrived And Will Enter Training Right Away

With only 500 pupils registered by Thursday night, it is confidently expected that the total enrollment of the Belle Glade schools will reach 600 next week.

The preliminaries will have been completed by Monday morning and students will be expected to get right down to business from then on.

Teachers have been secured to fill all necessary positions, but there are still some of the complimentary classes to find tutors. The enrollment for the Belle Glade and Osceola schools is as follows:

Osceola School
First Grade—21
Second Grade—22
Third Grade—16
Fourth Grade—9
Fifth Grade—7
Sixth Grade—10
Total 85

Belle Glade Elementary
First Grade—58
Second Grade—49
Third Grade—51
Fourth Grade—55
Fifth Grade—23
Sixth Grade—46
Total 260

Belle Glade High School
Seventh Grade—49
Eighth Grade—36
Ninth Grade—31
Tenth Grade—41
Eleventh Grade—38
Twelfth Grade—24
Total 221

Mr. Cook, the new coach has arrived and real practice began yesterday afternoon. There are still some football candidates who are expected to show up.

The Athletic Council will hold a meeting next Thursday night to discuss the football team. City Hall. Season tickets will be sold instead of the usual drive to collect money for the operation of football. It is expected that a new football field on the newly acquired 20 acres

Excellent Financially Decrepit Physically Is Waterworks' Condition

Meeting Called By Supt. Kidder

Superintendent Ralph W. Kidder of the Community Methodist Sunday School is announcing that a meeting will be held at the church tonight at 8:15 for the purpose of discussing plans for the coming year and the election of officers.

All Sunday School teachers and officers are requested to attend and members and their friends who are interested in the Sunday School work are also invited.

Dire Need For Additional Facilities For Health And Fire Protection Shown

"We've been operating by the Grace of God and the State Board of Health," said Water Commissioner Risk.

"We must be thankful that no more fires have occurred and that they did not occur late in the afternoon or early night," said Fire Chief Will, in referring to the woeful lack of water for fire fighting purposes.

"There have been many times," said Chief Will, "when the pumps could not have run ten minutes for lack of water."

These statements give an idea of the condition of the water situation in Belle Glade during the past year.

The cuning plant would have had to shut down if it had the beans to run on numerous occasions and additional pumps had to be installed to care for those beans that did get into the plant.

With the nearing of the vote, September 12th, next Tuesday, on the proposed \$200,000 bond issue, Commissioner Van Landingham and Risk have checked over some of the records of the local plant and have unearthed some interesting figures to figure out and bankers.

In 1937 and 1939 there was a total of \$116,000 spent on a water works plant with \$40,000 as a grant from the WPA, and the balance in bonds.

To date all interest has been paid on those bonds when due, and a total of \$118,000 in reduction has been made, leaving outstanding some \$66,000 indebtedness.

There is on hand at present \$19,700, a part of which is for bond retirement and money had to be paid on those bonds when due, and a total of \$118,000 in reduction has been made, leaving outstanding some \$66,000 indebtedness.

The plant showed a net profit of about \$14,000 on a gross business of \$42,700 in the year ending September 30th, 1943. With actual figures for eleven months, and an estimate for the twelfth, September, this year work will show a gross income of \$49,700 with a net operating profit of about \$19,000, or about a 40 per cent net profit on the business done, which was a great deal less than could have been done.

The line to the Migratory Camp and Hospital which is valued at \$10,000 is paid out, after four years operation, from half of the monthly water bill. This indicates that the water bill has been about \$5,000 per month.

Butcherette

It is not unusual for women to take the place of men in a lot of trades and undertakings on account of the war, but when one by professional education and experience enters the field of meat curing, that's news.

Belle Glade is to have the first professional woman meat cutter—a student of the art and a professional by experience.

Miss Robin Young of Birmingham, Ala., attended Auburn where a home economics course led to the intriguing complementary study of the anatomy of hogs, beef and poultry, as well as other sources of the average American's meat dishes.

After four years as a teacher of meat cutting in the schools of Vernon, Ala., Miss Young spent two years as cutter and manager of Super Markets in West Palm Beach.

Not, Hendry's Market is employing Miss Young, where she will preside over the carving of the fillets, steaks, roasts and whatnots of meat in the modern meat market.

Hendry's has doubled their display meat case space and plans to keep the large grocery furnished with plenty of choice meats for the practice of her art—she gets to do this if she expects to meet the lady's payroll each Saturday.

SERVICE MEN who FIGHT and WRITE

JESSE MOTTER, USCG

PFC. ELLIS F. WILKINSON, Private First Class Wilkinson of the Marine Corps was wounded in action during the invasion of Iwo Jima and is successfully recovering. He writes from a Naval hospital in the aviation life.

He said that he was wounded in the left shoulder and hand and hopes to be alright in a few more weeks. He was wounded in the left shoulder and hand and hopes to be alright in a few more weeks.

Private Wilkinson has been in the South Pacific for the past 18-2 months and is with the Third Marine Division.

TSGT. FRANK E. CURRIER, For his contribution in the European Air Offensive, Technical Sergeant Frank E. Currier has been presented with a Battle Participation Star. This award, in the form of a bronze star worn on the European Theatre Campaign ribbon, was presented him as an administrative clerk in "The Raiders," the Ninth Air Force A-29 "Havoc" light bomber group commanded by Lt. Col. Sherman R. Beatty of

Hopkium, Mass. Sergeant Currier, by efficient discharge of his duties, has played a vital part in the current series of round-the-clock bombings of enemy occupied territory in which the "Raiders" are closely supporting the ground troops on the Western Front from the land.

PRIVATE TED LAMB, Private Lamb is enrolled in the AAF Training Command's air crew training course. His first phase of training is in the B-24 Liberator bomber mechanics school at Keesler Field, Miss., where he will learn heavy bombardment aircraft maintenance and emergency flight procedures.

The technical course will extend over a period of approximately 17 weeks and will include instructions on the Liberator fuel and electrical systems, engines, propellers, structure and instruments.

Private Lamb is the son of Mr. and Mrs. H. Lamb.

TSGT. JACK LAMB, The job of keeping the guns in firing order and of passing

the ammunition to the 82nd Airborne Division in its highly successful assault on "Fortress Europe" fell to the members of the Ordnance unit of which Technical Sergeant Lamb is a member. It was necessary for this group of men to operate within range of hostile fire on many occasions in order to maintain the heavy guns of the crack division in the heavy action in the Crocetin Peninsula.

When valuable ordinance supplies had to be moved by hand, parachutes and gliders grounded in enemy areas, they went to the forefront of the battle to weld a bearded protection onto a field piece which was subjected to heavy and close enemy fire. So routine was the danger to men to operate within range of hostile fire on many occasions in order to maintain the heavy guns of the crack division in the heavy action in the Crocetin Peninsula.

"All of them deserve a lot of credit," said Lieutenant Colonel Joshua A. Fitch, who headed the group which landed by glider in the division's area of action on D-Day in France.

LARRY LAMB

(Continued from page one) set to the South Pacific Air Transport Command from July 15 to 25, 1943. During this period, Sergeant Lamb assisted in the transportation of extremely vital supplies to our ground forces on New Georgia, British Solomon Islands. Due to the overgrown jungle terrain, it was impossible for his pilot to land the plane and the crew was forced to drop the cargo while in flight. Despite the constant Japanese aerial opposition, intense anti-aircraft fire and the dangers involved in serving aboard an unarmed transport plane, he performed his duties with the highest efficiency. By his courage and unselfish devotion to duty, he contributed materially to the defeat and subsequent expulsion of the enemy from the above area. His conduct throughout was in keeping with the highest traditions of the United

States Naval Service." Enlisting in the Marines in July 1941 at West Palm Beach, Sergeant Lamb attended aviation mechanic's school at Chicago and Quantico, finally shipping overseas with a Marine transport plane outfit. After serving in the South Pacific for two years, he returned to the States last May and is now stationed at Cherry Point, N. C.

THE OLD JUDGE SAYS...

"The more I read about it, Judge, the more I realize the tactics and requirements of this war are as different from the one I fought in 23 years ago as night is from day."

"Yes, and I can give you an example of how true that is, Fred. In World War I the chief uses of alcohol produced for war purposes were found in smokeless powder, medical supplies and chemical warfare materials. In this war the need for this product is far more vital because it is also used as a fuel to propel torpedoes, to make shatterproof glass

for airplane windshields and instrument covers, to make lacquers used in camouflaging equipment and as a base for synthetic rubber needed for tires, gas masks, paratroop equipment and dozens of other things. "Every time I think of it, Fred, I realize how fortunate we were in having a beverage distilling industry in existence when war broke out... ready and eager to convert 100% to the production of this critically needed war product. I'm mighty sure bootleggers wouldn't have been of much help."

ACROSS FROM ROYAL'S

BUDGET UP 40 PER CENT

(Continued from page one) the exuberance of artificially-enthusiastic overpaid and underworked harvest hands. Elimination is impracticable—almost impossible—but control helps the moral of the individual and the finance of the Town.

Proper equalization of the tax roll, best done by some competent outsider, is growing more and more necessary each year. It's our contention that such an equalization, as is done in all up-to-date growing communities, will remove the necessity of increasing the millage and make business judgement instead of individual stomachs the determining factor.

The present tax roll is a hodge-podge of inequalities resulting from earnest efforts spoiled by loud cries of unthinking and selfish individuals. The present system is wrong—appraisers can be as scientific and accurate on real property for tax purposes as in any other field and they should be hired to do just that.

A 40 per cent increase in the budget of Belle Glade is not out of line and is to be commended in view of the increase in business, growth of the community and dollar values to be cared for by sanitary, police, streets and parks, fire and administrative departments.

LABORATORY ACTIVITIES

(Continued from page one)

and Aire Van Landingham.

A barbecue serving more than a hundred, in addition to about forty caddies was conceived in

spontaneous and spontaneously sponsored and executed by members for the midday meal Monday. Members, wives and their

families went home with satisfied appetites or labored through eighteen holes of golf after the feed. "A most enjoyable week end", said one satisfied customer, to which many agreed.

EXCELLENT FINANCIALLY

Continued from page 1 year, half of which went to paying for the line. From now on this entire \$5,000 revenue will come to the Town.

A six inch line is now being run to the Prison Farm, with an extension to the Sugar Company's camp. The State Prison System will pay for the line by retaining half of each bill until it's value is returned to them.

Take and outgo of the Water Works since 1940 afford an interesting study in what the plant has been doing.

The figures are an estimate for the year 44 which will not end until October 1st. They are as follows:

Year	Gross Income	Net Profit
40	\$23,428	\$3861.19
41	\$27,942	\$4035.49
42	\$41,501	\$6199.07
43	\$42,715	\$13,995.67
44	\$49,700	\$19,000.00

The last year, 1944, shows that 40 per cent of the take is profit.

The value of the Water Works, according to annual report as of September 30th, 1943 was \$156,000, and estimates are that this has grown to about \$170,000 as of the present time.

Engineers estimate that the proposed line to the Lake and the machinery and equipment to be installed are of sufficient capacity to care for a community of 50,000. It is pointed out that the present system furnishes enough water for 20,000 or

Graceful Lines in Rayon Gives Youthful Tone to This Outfit

A youthful silhouette is attained by the brief sleeves, slim skirt and graceful ruffle of this dress. In a breezy rayon print of yellow, grey and white, you will find it a perfect choice for spring-through-summer wear. This lovely little fabric, and by making it yourself, you will have extra money to put into War Bonds. Sewing Leaflet No. M 5591, "Before Beginning to Cut," may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of this paper.

more at the height of the season. In 1937 there were 163 meters of the local water system. There are now 810 with

100 more meters ordered and to be installed within 60 days. A modest estimate of a total of 250 meters at the end of 1948. The Rotary Lions, Chamber of Commerce, Woman's Club, Carpenter's Union and Legion have each divided the 307 names among their memberships at the rate of ten to each person. The purpose is to notify each voter before voting day, and again on, voting day, if necessary.

Predictions are that there will be a vote of over 250 with four to one favorable for the bond issue.

CARL GREER Continued from page 1 ruptured appendix.

The child was born in South Bay and attended school there. Besides his parents, he leaves a brother, Vance, 12 years and a sister, Gloria, 3 months old.

Also his grandparents, Mr. and Mrs. Walter Greer of Belle Glade.

Funeral services will be held at Mizelle's and have not been completed.

Are You a "Putter-Off"?

You know that the legal reserve Woodmen Life Insurance protection can't be excelled in building up your old age financial security, or in protecting your family should sickness or death deprive them of your earning power.

You know that you, like hundreds of thousands of other men and boys who are members, would enjoy and benefit from the social contacts and strong, lasting friendships formed by taking part in Woodcraft's social and fraternal activities.

You may have planned to become a Woodman, but have been putting it off until some busy day in the future.

Don't be a "putter-off." That future day may never come, or it may come too late. Let the local representative of the Woodmen of the World explain how you can begin at once to enjoy the many benefits and privileges the Woodmen Society offers you.
